

DC Motors

LN20 series

- Ironless cylindrically wound rotor
- Neodymium magnet used, high power
- Low power consumption, low moment of inertia

Representative applications

- Motor drive unit for cameras
- Medical pump
- Measuring instruments

		LN20
Voltage		V
R a t e d	Power output	W
	Torque	mN·m
		g-cm
	Speed	r/min
Current	mA	
N o l o a d	Speed	r/min
	Current	mA
Starting torque		mN·m
		g-cm
Torque constant		mN·m/A
		g-cm/A
Voltage constant		V/1000 r/min
Winding resistance		Ω
Winding inductance		mH
Moment of inertia		g-cm ²
Mechanical constant		mS
Thermal resistance		°C/W

Winding change and/or options possible for meeting customized performance requirements
